

EXPENDITURES ON MEDICINES

GOVERNMENT EXPENDITURES ON MEDICINES IN 2019, IN BILLIONS OF EUROS.

a) Some medicines are also financed via the WLZ (Wet langdurige zorg) [Long-term Care Act]. No public figures are available for this purpose.

b) These expenditures are for 2017 and regard medicines that cost more than € 1,000 per year.

c) These are medicines that have been declared via Diagnose Behandel Combinaties [Diagnosis Treatment Combinations] (DTCs). These are sales figures from wholesalers and hospitals that are indicative of the final expenditures.
